albert massaad™

Introduction

VISION

albert massaad™ is becoming a global provider of solutions and products for customers integrating added value technology for efficient and effective mobile storage system.

VALUES

Integrity is the cornerstone of our existence.
Focus on customer needs.
Listening, responding and creating solutions.
Continuous development of human resource.
Creating a permanent learning environment.

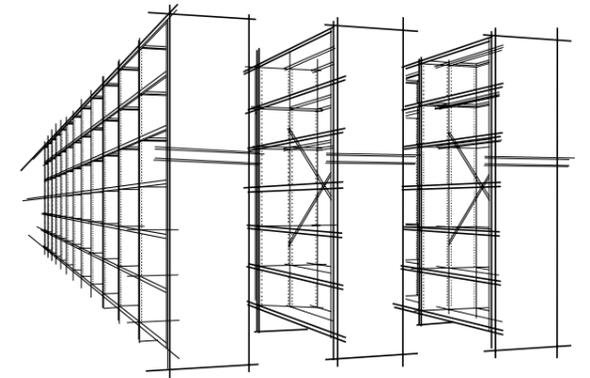

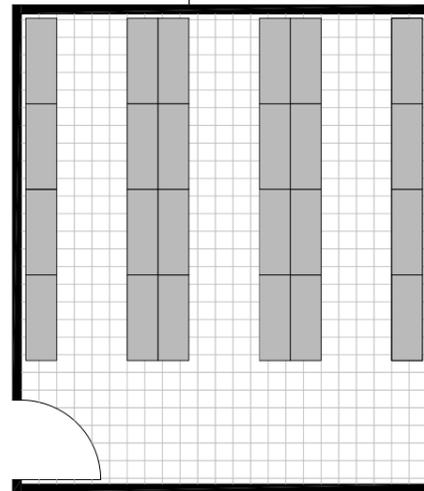

CERTIFICATIONS

All albert massaad™ operations of design, manufacturing and trading are in compliance with Quality Management System ISO 9001:2015 and environmental Management System ISO 14001:2015.

The Problem

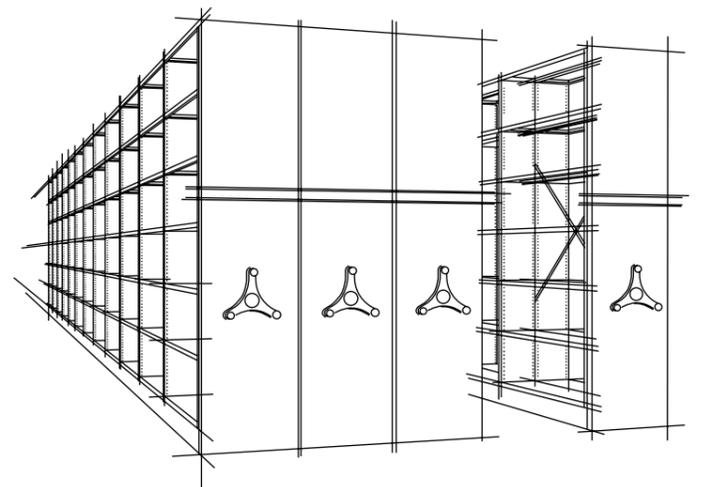

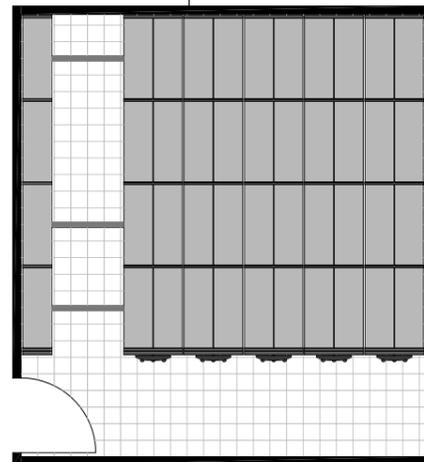

Basic proposal

The Solution

albert massaad™ **mobicab**

Efficient Shelving System

Recover at least 50% of your storage space.

The albert massaad™ mobicab mobile shelving system is two to three times more efficient than traditional shelving systems. It is a brilliant idea and is easy to relocate.

Out of Storage Space?
Never!

Manual Shelving System

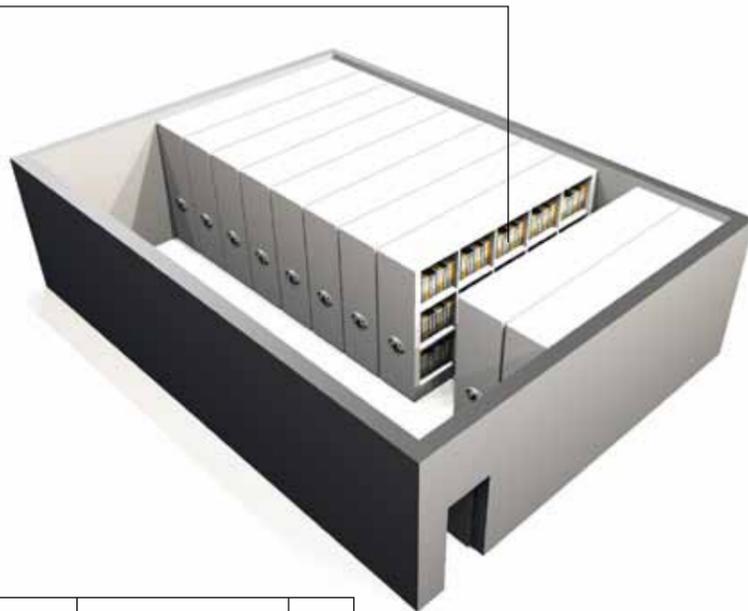

Advantages

How can we help?

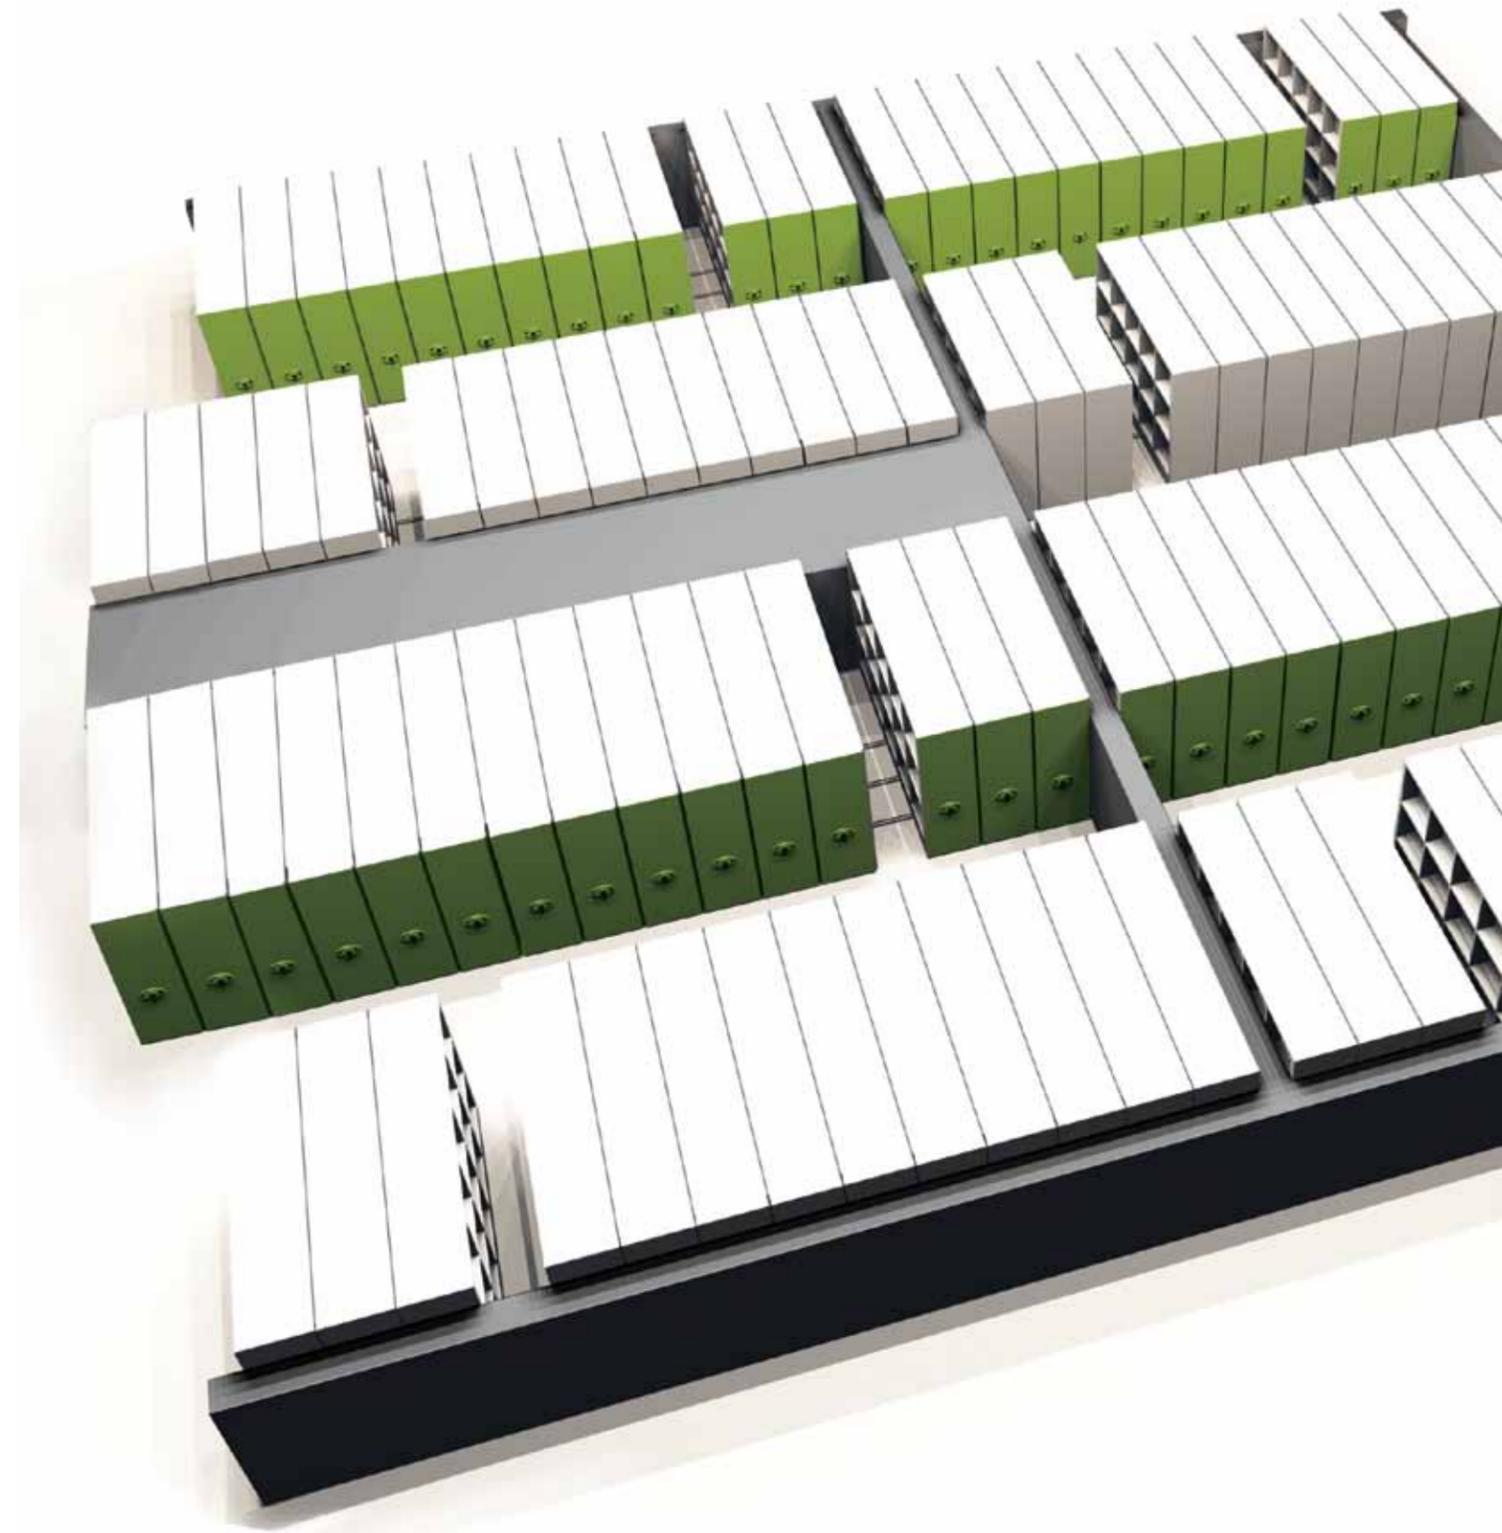

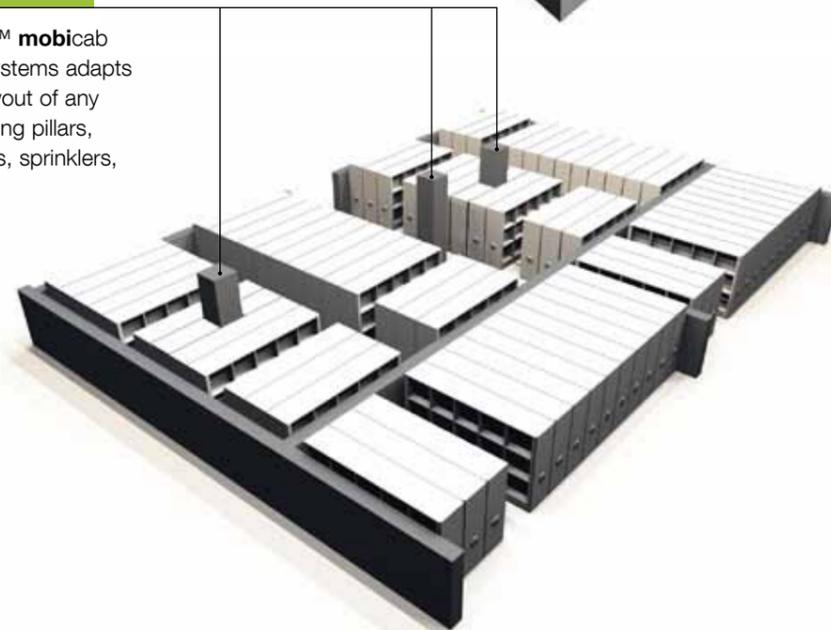

Access Aisle

The only requirement to make this system mobile is the availability of an access aisle which will entail the possibility of duplicating the storage space capacity versus the static storage systems.

Pillars, Walls, Tubes...

albert massaad™ mobicab mobile shelving systems adapts perfectly to the layout of any premises, integrating pillars, ventilation systems, sprinklers, etc. in the design.

Usage

Multiple Products,
Multiple Solutions.

Specifications

Engineered, Perfected,
Safe & Ergonomic

Access ramp

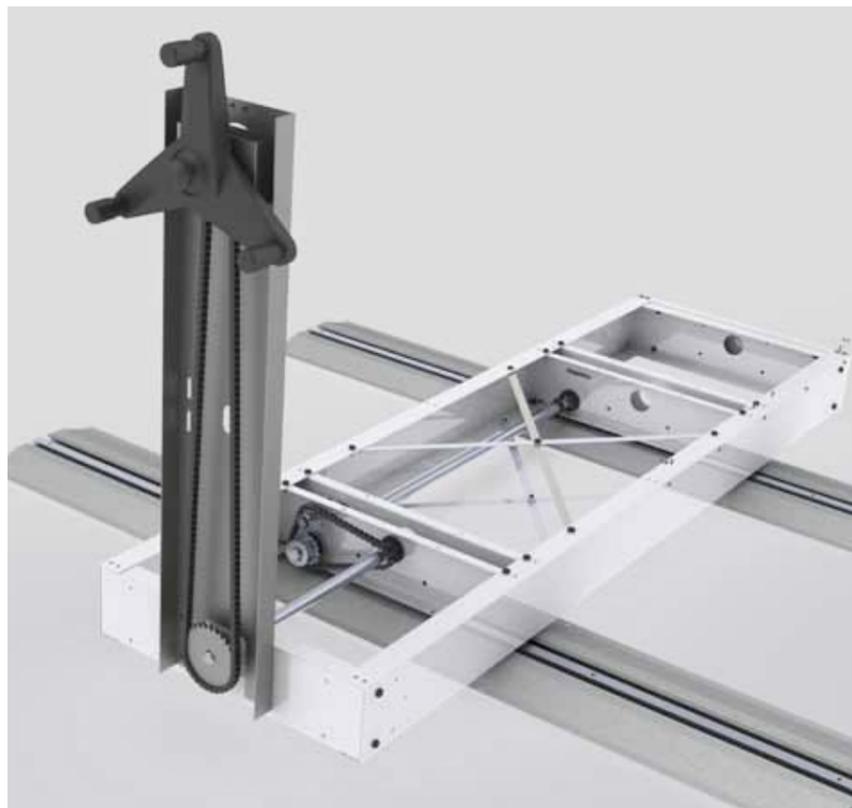

Mobile base

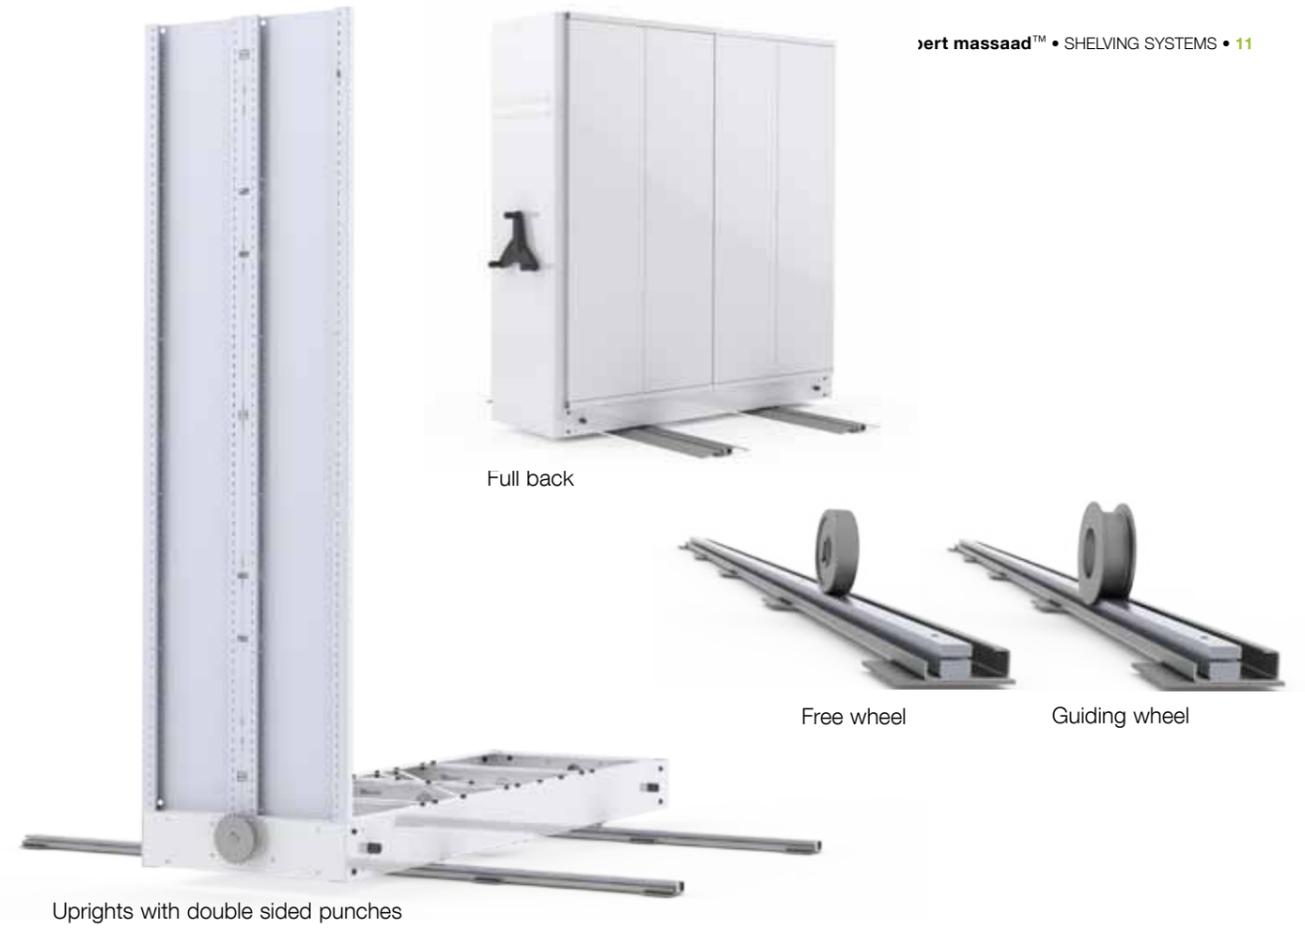

Torque converter

Anti-tilt device

Ergonomic handle with multiplier transmission

Full back

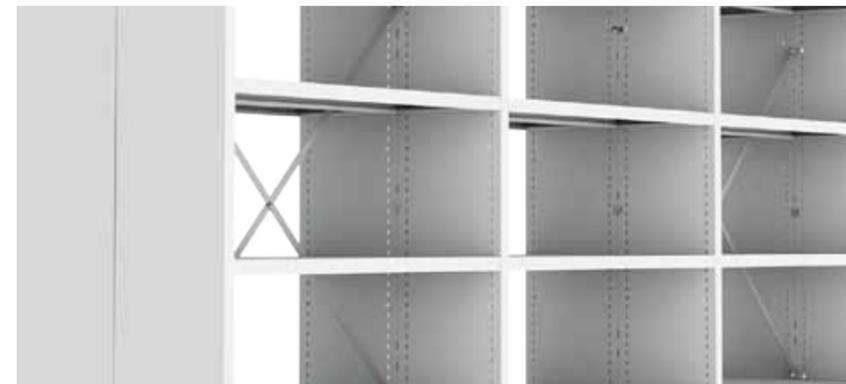

Free wheel

Guiding wheel

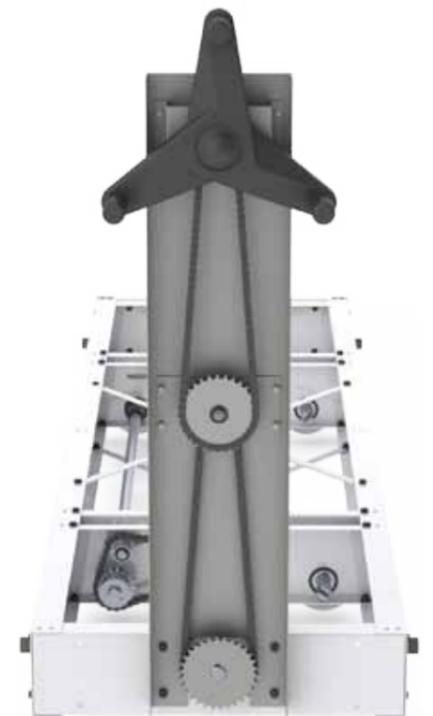

Uprights with double sided punches

Shelf clip

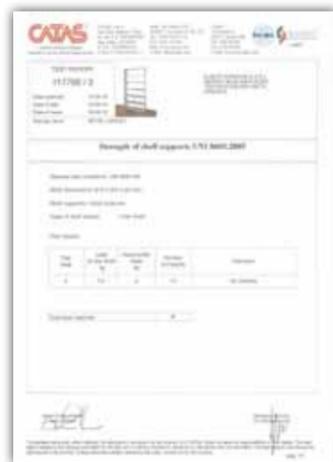

Diagonal Struts

Swivel handle with push-to-lock button

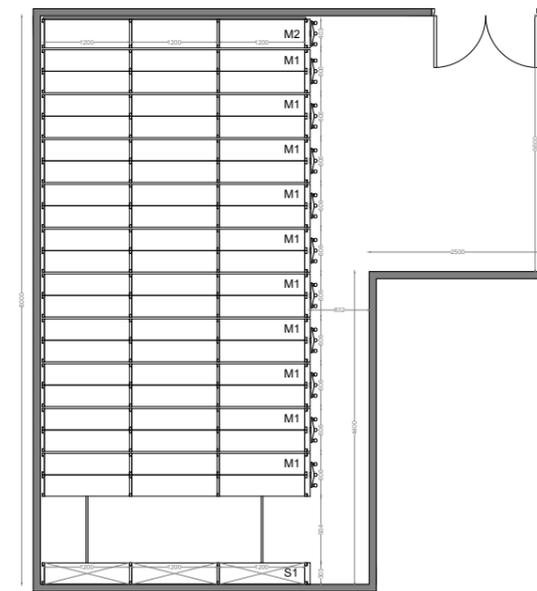

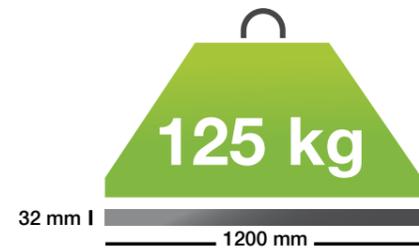

Our design team make all proposals by optimizing the space while taking into consideration the environment, safety and security of the users.

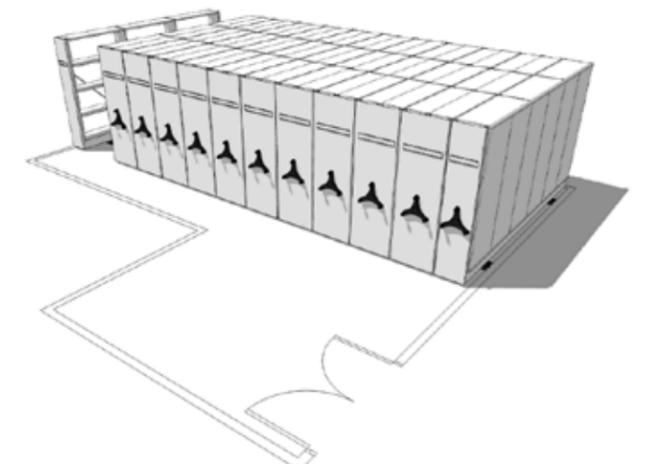

CATAS: loading tests

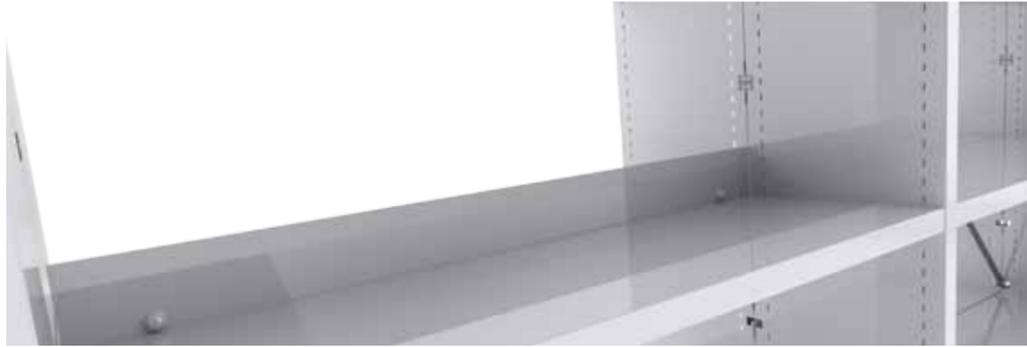

GS: safety and security tests

AutoCad and 3D render proposals

Options

Small back partitions

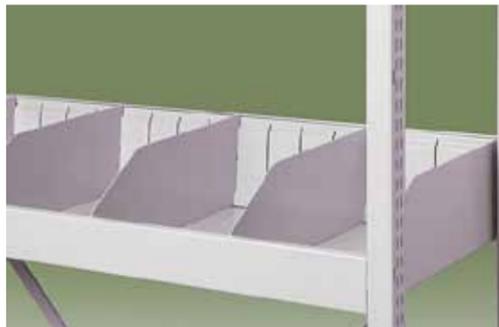

Swinging doors (doubles or singles)

Drawers

Pull out trays

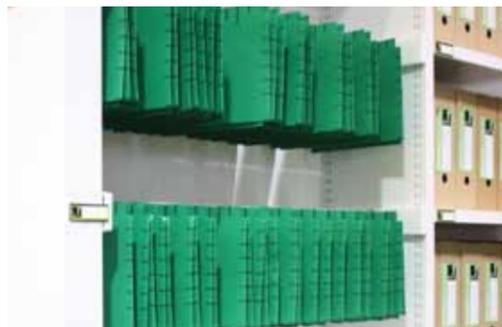

Partitions

Documents & books partitions

Pull-out file supports

Hanging files

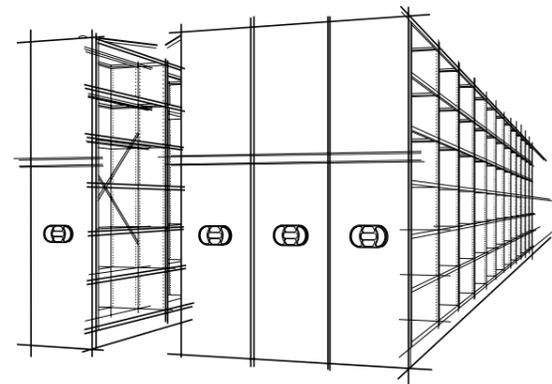

Motorized System

Good solution for heavy loads!

mobicab plus

- Ease of use - press to move
- Optimal user safety
- Adapts perfectly to any layout
- Smooth/effortless movement
- Ergonomic design
- Could be connected to a computer software for automated mobility

Specifications

- Up to 25t capacity
- 24VDC motor, 10A
- Certified Product UL, cJUL & CE

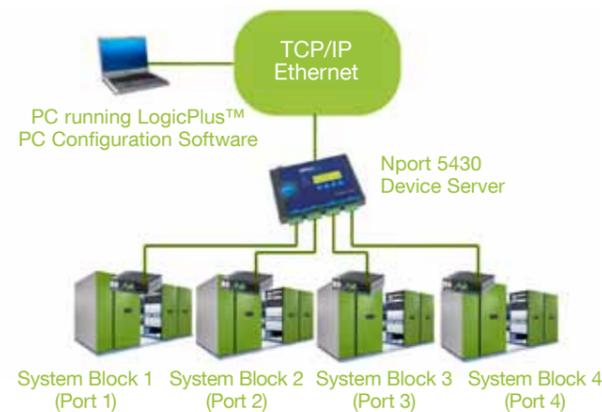

Technical Specifications

- Plug & Play installation
- Big button touch panel
- One touch aisle access
- Full hands operation
- Security access control
- Passive safety
- Photocells
- Motor current monitoring system (MCMS)
- Soft Start/Stop
- Static mobile configuration
- Priority aisle access
- Automatic aisle closing
- Low power technology
- Windows configuration software
- Self diagnostic

Options

- Entrance detection sensor (EDS)
- Aisle entry safety sensor
- Dual end aisle access
- Battery back up
- Aisle light control
- Floor sensor
- Ethernet access
- Fire park
- Double dekker

mobicab plus

Technical Specifications

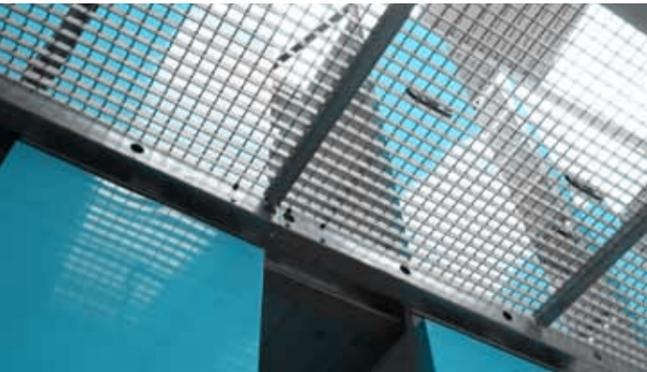

- Up to 25tons load capacity per mobile
- 230VAC, 10A power supply
- 24 DC gear motor
- Motors: 15,40 & 90W
- UL and cUL listed
- CE marked

High security with high quality photocells

Double Dekker

Two levels, double your storage space!

mobicab DD

Reduce wall storage easily

Genious!

This storage system is a rotating cube inside a static cabinet offering easy access from the front and the back of the cabinet.

Space Saving:

Divide the working & consultation zones by two

Secure

- Engineered to prevent injury
- Could be locked by keys/codes...

Several Options including:

- Drawers with telescopic glides
- Suspended files support
- Secured drawers

#360cab

#360cab is a double sided rotating filing system which can save substantially on floor space giving you the ability to redefine your total needs.

Units can be placed against walls or dividers giving double density storage capacity within a much reduced footprint area.
